WELCOME TO LIGHTING WORLD

THE COMPREHENSIVE RANGE OF LED LIGHTING PRODUCTS

WHO WE ARE

EKOS is the unit of RSG Group that has bought a mind blowing range of LED lighting products in India. After successfully completing seven years the company has expanded their range by manufacturing the solar panels and lightings as well.

The main objective of the company is to work towards energy conservation in order to contribute towards India's prosperity by saving a substantial amount of electricity. To meet with this objective, RSG Sales & Services (P) Ltd. has a team of professionals that helps in creating such low energy consuming products.

EKOS has always worked towards providing the best quality service to its customers and fulfilling their requirements in order to bring them a value for money products.

OUR MISSION

Well, it can sound cliched when we put it out there, but our mission is to make electricity available to every barren land. With wide arena of knowledge we develop new softwares and technology that caters to people's business opportunities as well. We want to make the masses understand the usage of electricity!

OUR VISION

Our vision is to be a value preposition manufacturing unit in electrical energy and present a range of electronic services along with the aspects of electrical learning, energy conservation, power generation and bring more creative thought for transmission and distribution with energy conservation.

QUALITY ASSURANCE

Quality is considered the most essential element of the product to maintain a loyal client base. Owing to this fact, we have hired a team of quality auditors who undertake the responsibility of maintenance of the standards and specifications laid down to provide our customers with the best quality product.

CUSTOMER SATISFACTION

Client satisfaction is our ultimate goal and to achieve this, our team works really hard. We try to exceed the expectations of the clients by providing the best quality range of products. Our team maintains healthy business relationships with our clients and readily accepts their feedback. This helps us to understand the specific needs of our clients and develop our range accordingly.
